PERSONAL PROFILE

I am currently in my final year at De Montfort University in which I am studying a Computer Science (BSc Hons) degree. With excellent communication and organisational skills gained throughout my time at university and work experiences which have also aided me in achieving first class honours in my first two years. I believe that a graduate role would be an excellent opportunity for me to enhance the skills I have acquired till date, whilst also escalating my desire to pursue a career within the technology sector.
